FINAL CALL FOR PAPERS AND WORKSHOPS 2023 ALASA CONFERENCE

The 24th INTERNATIONAL CONFERENCE OF THE AFRICAN LANGUAGES ASSOCIATION OF SOUTHERN AFRICA (ALASA) in collaboration with the Pan South African Language Board (PanSALB) will be hosted by the Department of Applied Languages of Tshwane University of Technology (TUT) in Pretoria.

DATE: 26-29 September 2023

VENUE: Birchwood Hotel & OR Tambo Conference Centre, Boksburg.

CONFERENCE THEME

Beyond the intellectualisation of African languages for awakening potential in Africa In 1951, UNESCO stated unequivocally that the best language to transfer knowledge to children is through their first language. In the last century, many nations did not just develop their first languages for the purposes of teaching their children in those languages, they also intellectualised them. In this century, it is no longer a debate as to whether indigenous languages of Africa should be intellectualised or not, it is about how to go about intellectualising them.

Delegates are particularly encouraged to engage with this theme. In addition to this theme, this conference intends to address a range of critically important themes in the various fields of linguistics, applied linguistics and sociolinguistics.

Plenary sessions will include presentations by some of the world's leading thinkers in the humanities, as well as numerous paper and workshop presentations. The purpose of the conference is to attract scholars and researchers from a variety of disciplines and to bring together a cohort of established and emerging researchers in one assembly to deliberate on topics related to the theme and sub-themes. Sub-themes include (but are not confined to) the following areas:
